

BOTTLES WINE LIST

In Vino Veritas

Indigenous Grape

Grape variety that is native to a particular region.

Riserva

A wine that should offer higher quality through selection of grapes or parcels and/or that has been through extra ageing before being sold.

Blends

It refers to wines that are made from more than one variety of grapes.

Organic

Wine made from grapes grown in accordance with the principle of organic farming which typically excludes the use of artificial chemical fertilisers, pesticides, fungicides and herbicides. Some of these principles vary from country to country.

Vegan

Wine that has not been fined, filtered or come into contact with anything derived from an animal or dairy source.

Biodynamic

Wine made with a set of farming practices that views the vineyard as one solid, living and receptive organism, following a planting calendar that depends upon astronomical configurations. In the cellar, nature takes over hence fermentation starts spontaneously thanks to the native yeasts present in the skin of the grapes. No sulphites or any other products are added during vinification. Usually very little sulphite is added during bottling.

Orange

White wine made allowing protracted skin contact with the juice like you would in a red. The process creates a deep orange hue with yeasty, freshly fermented aromas. It's not uncommon a very limited to no use of sulphites till bottling.

N.V.

Non-Vintage. Wine made from grapes coming from more than one harvest.
