## WINE

Wine is unique, forever changing, but always preserved. Every second of every day, someone pours their heart and soul into producing something unique, and at BOTTLES, we want to explore this wonderful world and take you with us. Specialising in sustainable, independent, organic & bio-dynamic producers, we've searched far and wide to create a list full of surprises where even the top wine connoisseurs will feel like a kid in a candy shop. From unique regions & terroir to the forgotten grapes of Italy, quality is the only word we wish to live by.

## FOOD

The combination of food and wine is critical to our concept. They complement each other. We constantly study what works best with what. Allowing us to offer you an experience and take you through a journey you won't forget.

Our menu is always seasonal. We respect nature and its produce. We only use the best suppliers who source their ingredients very carefully. We have a ZERO waste policy. We cook everything fresh every day. There is always a way to use every part of every vegetable, meat or fish. We provide our take on regional Italian food, from artisan Italian meats & cheeses to exciting twists on classic Italian dishes designed to complement our wines perfectly.
